SUMMARY

Frontend Software Developer with 2+ years of experience building responsive, user-friendly web applications using React, TypeScript, JavaScript, HTML, and CSS. Skilled in developing and maintaining scalable, multi-platform applications, integrating data-heavy UI components such as AG Grid, and building file handling workflows including uploads, PDF generation, and Excel exports. Experienced in collaborating with cross-functional teams to deliver seamless, high-quality user experiences. Passionate about writing clean, efficient code and continuously improving frontend performance and usability.

SKILLS

Frontend Development: React.js, Redux Toolkit, JavaScript (ES6+), TypeScript, HTML5, CSS3, Sass/SCSS, Tailwind, Vite, ESLint, Responsive Web Design, Cross-Browser Compatibility, Performance Optimization, Unit Testing & Debugging

Data Grids & Reporting: AG Grid, File/Image/Document Upload, PDF Export (jsPDF, jsPDF-AutoTable), Excel Export (SheetJS/xlsx)

Mobile Development: React Native, Expo, React Navigation

State Management: Redux Toolkit

Database: SQL

Tools & Collaboration: Git, GitHub, GitLab, Postman, npm, Trello, Plane, CI/CD Pipelines (GitHub Actions/GitLab CI)

EXPERIENCE

Software Developer - Terranxt Gurugram, Haryana

April 2024 - Current

- Developed and implemented the pvNxt portal using React.js, TypeScript, and Redux Toolkit to streamline the solar installation process, connecting consumers, EPC companies, and installers. Implemented reusable component architecture and REST API integration.
- Designed and developed scalable user interfaces using React.js with Redux Toolkit for global state management, React Hooks for state and lifecycle handling, and client-side routing for seamless navigation.
- Built image and document upload modules with client-side validation and preview, integrated with backend APIs for secure storage and retrieval.
- Implemented downloadable PDF report and invoice generation using jsPDF and jsPDF-AutoTable, and built Excel export functionality for formatted spreadsheet reports from application data.
- Integrated AG Grid to build interactive, high-performance data tables with sorting, filtering, pagination, and custom cell renderers for large datasets.
- Set up and maintained CI/CD pipelines for automated build, testing, and deployment, ensuring reliable, consistent releases to production.
- Managed the admin portal with secure role-based authentication and authorization, protected routes, and efficient data handling through API integration.
- Followed Git-based version control best practices, including feature branching, pull requests, and resolving merge conflicts within a collaborative team workflow.
- Participated in code reviews, providing constructive feedback to peers and ensuring adherence to coding standards, reusability, and performance best practices.
- Performed unit testing after feature implementation and bug fixes; tracked bugs/tasks using Trello and Plane, and used npm for dependency management.

PROJECTS

Chatty chatty.com

- Built a real-time chat web application with secure signup/login and instant messaging using React (Vite), TypeScript, Node.js and Express. Implemented REST APIs, WebSockets for real-time communication, MongoDB for data storage, client-side routing, JWT-based authentication and authorization, and Zustand for state management.

ThinkBoard thinkboard.com

- Built a full-stack MERN notes management application using MongoDB, Express.js, React (Vite + TypeScript) and Node.js. Implemented REST APIs, CRUD operations, client-side routing, React Hooks for state and lifecycle management, JWT-based authentication and authorization, and responsive UI development.

Today's Tasks [today's task app](https://todaystaskapp.com)

- Built a cross-platform Todo mobile app using React Native (Expo) with Convex as the backend. Implemented real-time data synchronization, CRUD operations, React Navigation with Stack and Tab navigators for routing, React Hooks for state and lifecycle management, global state handling, and responsive mobile UI with a dedicated settings module.

EDUCATION

Aditya Engineering College - Surampalem, Andhra Pradesh

October 2021

Bachelor of Technology in Mechanical Engineering

CGPA: 7.01

Pragati Junior College - Prathipadu, Andhra Pradesh

April 2017

Intermediate: M.P.C

Percentage: 89.9%

Zilla Parishad High School - Prathipadu, Andhra Pradesh

April 2015

10th Class: SSC

CGPA: 7.7

ACCOMPLISHMENTS

- Achieved second prize in the Mandal-level chess competition.

LANGUAGES

Telugu, English, Hindi
